

# Celebrate the Coast Schedule

## Adventure

### Self-Guided Hike to Pebble Beach 10-4

Follow signs along the trail to Pebble Beach and learn about local plants and animals at your own pace. About a half a mile each way, but plan 1-2 hours.

### State Parks Junior Ranger 10-4

Kids! Explore the park and earn your award by completing pages in the Junior Ranger Activity Guide! Self-guided. Learn more at the Junior Ranger table.

### Wellness Walk 11-1

Join Alicia Cruz, from Latino Outdoors, on a holistic wellness walk with a simple and powerful grounding tool to connect and heal with Mother Earth. Meet at the LO booth.

### Naturalist Hike to Indian Beach 1-3

Join Liliana Lavezzo, interpreter with California State Parks, for a 2 mile round trip hike to Indian Beach. Meet at the Welcome Table.

## Art

### Nature Journal Art 10-2

Build your own nature journal and experiment with different forms of nature art. While you can't collect treasures in the state park, this is a treasure you can take home.

### Poetry Slam 3-4

Show your support for the top high school finalists. At the Vista Point Group Picnic Area, a short walk up the trail from the beach.

## Sports and Games

### Nature Games 10-4

Learn more about your role in a whales food chain while playing a GIANT game of Jenga. Smaller version available for younger children. Or try the salmon lifecycle bean bag toss and help fertilize our redwood forest to fight climate change.

### Blue Waters Kayaking 10-1

Demo a double kayak or one of many paddle boards with Blue Waters Kayaking. Each demo includes a Leave-No-Trace mini-workshop so you can learn practice responsible paddling.

### Environmental Travel Companions 10-4

Environmental Traveling Companions (ETC) will be showcasing its accessible sea kayaking program, and giving demos of different adaptive kayaking equipment. Stop by to check out our Adventure Maker Chairs, adaptive paddles, and to learn about volunteering!

### Nature Trivia 12-2

The Angry Mermaid Trivia Show: What can you do to make our ocean a safer place for Ariel and all sea children to live? With Jeff Caplan of CommonLanguageProgram.org

## Science and Ecology

### Biologist on the Beach 9-2

Check out small living creatures under microscopes and learn more about who else resides in Tomales Bay.

### River Otter Ecology Project 10-4

Learn about one of Tomales Bay's most charismatic creatures and how you can help monitor them in your watershed.

### California Coastal Pledge 10-4

Commit to one behavior you will change to help protect our coast and help slow the impacts of climate change. Find a coastal pledge sheet at the Turtle Island table.
